**MARIAFLORA**  
ITALIAN LUXURY PERFORMANCE FABRICS

In the Valley of the Temples, Sicily, lies an ancient corner of paradise. Magnificent Greek temples, pure white cliffs, luxuriant centuries-old olive trees and citrus fruits flooding the valley with their fragrances. All seems peacefully dormant. Yet it is eternally changing.

All things are forged by the Levante wind, blowing from the East since the beginning of time. The polished surface of white marl, the delicate petals of helichrysum, the gentle lapping of the waves.

Mariaflora's new collection Levante is inspired by the ever-changing flow of nature. Change gifts us with new eyes: it encourages us to draw closer, to cherish details and moments hic et nunc - here and now -, for tomorrow they will be different. And you will too.

Manufactured in Italy from premium Italian solution-dyed acrylic yarns, Levante features a collection of indoor-outdoor fabrics with a natural and sophisticated Mediterranean look and the softest of hands. Its palette is elegant and versatile, ranging from White to Beige, from Blue to Gray.

**Draw closer and let it change you.**

Kolymbetra is the first ever **embroidered** indoor-outdoor chenille. Inspired by traditional Sicilian embroidery. Easy-care.

**Designed to seize the moment  
indoors and out.**
